

PATIENT LIFTS AND SLINGS

MAXICARE BARIATRIC PATIENT LIFTING SYSTEM

When transferring a bariatric patient, safety is key for both the patient and caregiver. The Gendron Patient Lift is designed to offer a safer and robust solution to patient transfers.

Features

- Heavy-gauge steel construction
- Four-Point spreader bar with rotation tilts to enhance comfort and safety
- The hand pendant controls all functions of the lift including extending and retracting the legs and the opening and closing of the base
- Lifting and lowering along with the left and right rotational movement are also hand pendant operated
- Lower base height maximizes stability and fits under beds
- 24V DC motor allows quiet smooth operation
- Easy access emergency stop button
- Emergency Power Off button available if needed in event of a power loss
- Powder-coated finish
- Optional digital scale available
- Available in 3 options to support 700 lb (317.5 kg), 800 lb (362.8 kg) and 1,000 (453.5 kg) Weight Capacities

Warranty:

- Frame and spreader bar five (5) year limited
- Actuator one (1) year limited
