SAFETY. COMFORT. DIGNITY.

The Elite Acute Care Bed provides your bariatric patients with all of the above in an easy-to-use design, engineered to allow you to give your patients the best possible care.
**Bed Positioning/Articulation**
Provide proper clinical positioning from Trendelenburg and Reverse Trendelenburg to knee flex and cardio chair – easy-to-use button controls; one button cardio chair positioning and one button return to level positioning.

**Out of Bed Exit Alarm**
Alerts you when patient attempts to exit bed – programmable alarm sounds at the bed, with an option to connect to the nurse station.

**Caregiver Control**
Located at foot end of bed. Any or all hand pendant functions can be locked out at the caregiver control to restrict patient access.

**Features Include:**
- **Bed Positioning/Articulation**
- **Out of Bed Exit Alarm**

**Patient Helper/Trapeze**
Transfer, lift and position patients with ease – swings 90 degrees from center for accessibility to the patient and eliminates the need to remove the trapeze from the bed when transferring the patient.

**CPR Fowler Backrest Release**
Respond faster to patient needs – lower backrest to flat within six seconds for CPR.

**Four Wheel Lock and Steer**
Steer safely and precisely – engage wheel lock and steer at any caster wheel.

**Control Pendant**
Adjust settings confidently even in dark rooms – illuminated controls; five-function, self-storing at head end, left and right side.

**Adjustable Deck Length**
Ensure the comfort of your tall patients – one touch extension from 84" to 92" long.

**Adjustable Deck Width**
Transport safely and provide comfort – one touch extension from 39" to 49" to 54" wide.

**Integrated Bed Scale System**
Ensure patient privacy – scale display window rotates to block the view of the information shown on the scale display.

**Caregiver Control**
Located at foot end of bed.

**Adjustable Bed Scale**
Increase patient safety by preventing patient roll over – protect patients from falls with 17" high side rails.

**Transfer, Lift and Position**
Transfer, lift and position patients with ease – swings 90 degrees from center for accessibility to the patient and eliminates the need to remove the trapeze from the bed when transferring the patient.

**Four Wheel Lock and Steer**
Steer safely and precisely – engage wheel lock and steer at any caster wheel.

**Control Pendant**
Adjust settings confidently even in dark rooms – illuminated controls; five-function, self-storing at head end, left and right side.

**Adjustable Deck Length**
Ensure the comfort of your tall patients – one touch extension from 84" to 92" long.

**Adjustable Deck Width**
Transport safely and provide comfort – one touch extension from 39" to 49" to 54" wide.

**Integrated Bed Scale System**
Ensure patient privacy – scale display window rotates to block the view of the information shown on the scale display.
PATIENT WEIGHT CAPACITY: 1000 pounds

FOWLER BACK REST: 0-50 degrees

TRENEDELBURG/REVERSE TREDELENBURG: 9 degrees

KNEE FLEX/GATCH: 0-20 degrees

DECK LOW POSITION: 17”
